2015 Digital Divide Profile

Johnson County, Indiana

The digital divide index score (DDI) ranges between 0 and 100, where a lower score indicates a lower divide. The infrastructure adoption score and the socioeconomic score both in a 0 to 100 range as well contribute to the overall DDI. Listed below each score are the indicators used.

**Infrastructure/Adoption Score**

- **Score:** 45.55
- If this score is much higher than the socioeconomic score, efforts should be made to upgrade the broadband infrastructure.
  - Average maximum advertised download speed in Mbps: 67.698
  - Average maximum advertised upload speed in Mbps: 5.872
  - Of households with a 10/1 broadband connection: 60.0% - 79.9%
  - Of people without access to fixed broadband of at least 25 Mbps down and 3 Mbps up: 11.2%

**Socioeconomic Score**

- **Score:** 19.47
- If this score is much higher than the infrastructure/adoPTION score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.
  - Population ages 65 and older: 13.4%
  - Ages 25 and older with less than a high school degree: 8.0%
  - Of individuals in poverty: 9.9%
  - Noninstitutionalized civilian population with a disability: 10.2%

**Missed Economic Benefits**

- **Amount:** $21,000,904
- Amount over 15 years if 20% of unserved households had access and subscribed to the service.
