If this score is much higher than the infrastructure/adoption score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.

**Infrastructure/Adoption Score**

- **15.128** average maximum advertised download speed in Mbps
- **3.018** average maximum advertised upload speed in Mbps
- **20.0 - 39.9%** of households with a 10/1 broadband connection
- **43.5%** of people without access to fixed broadband of at least 25 Mbps down and 3 Mbps up

If this score is much higher than the socioeconomic score, efforts should be made to upgrade the broadband infrastructure.

**Socioeconomic Score**

- **13.9%** population ages 65 and older
- **15.7%** ages 25 and older with less than a high school degree
- **12.2%** of individuals in poverty
- **12.6%** noninstitutionalized civilian population with a disability

If this score is much higher than the infrastructure/adoption score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.

**Missed Economic Benefits**

$28,924,851 amount over 15 years if 20% of unserved households had access and subscribed to the service.
