If this score is much higher than the infrastructure/adoption score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.

Infrastructure/Adoption Score

- **17.267** average maximum advertised download speed in Mbps
- **3.257** average maximum advertised upload speed in Mbps
- **40.0 - 59.9%** of households with a 10/1 broadband connection
- **34.2%** of people without access to fixed broadband of at least 25 Mbps down and 3 Mbps up

If this score is much higher than the socioeconomic score, efforts should be made to upgrade the broadband infrastructure.

Socioeconomic Score

- **18.2%** population ages 65 and older
- **11.1%** ages 25 and older with less than a high school degree
- **12.9%** of individuals in poverty
- **16.9%** noninstitutionalized civilian population with a disability

If this score is much higher than the infrastructure/adoptions score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.

Missed Economic Benefits

- **8,361,285** amount over 15 years if 20% of unserved households had access and subscribed to the service.
