

Adams County, Indiana

2024 DIGITAL DIVIDE PROFILE

DIGITAL DIVIDE INDEX (DDI) SCORE

The digital divide index score (DDI) ranges between 0 and 100, where a lower score indicates a lower divide. The infrastructure adoption score and the socioeconomic (see scores and indicators below) contribute to the overall DDI.

INFRASTRUCTURE/ADOPTION SCORE

67.5

If this score is much higher than the socioeconomic score, efforts should be made to upgrade the broadband infrastructure.

17.1
(5.4)

percent households without a computing device

19.4
(7.6)

percent households with no internet access (not subscribing)

197.2
(275.5)

average download speed in Mbps

64.3
(127.2)

average upload speed in Mbps

State averages are shown in parenthesis.

SOCIOECONOMIC SCORE

20.99

If this score is much higher than the infrastructure/adoption score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology.

16.3
(16.8)

percent population age 65 and older

11.1
(9.6)

percent age 25 and older with less than a high school degree

12.3
(14.2)

percent of noninstitutionalized civilian population with a disability

11.2
(12.3)

percent of individuals in poverty

3.1
(5.5)

internet income ratio - a higher number denotes higher inequality

State averages are shown in parenthesis.
