

Adams, Indiana

2021 DIGITAL DIVIDE PROFILE

The digital divide index score (DDI) ranges between 0 and 100, where a lower score indicates a lower divide. The infrastructure adoption score and the socioeconomic (see scores and indicators below) contribute to the overall DDI. State averages are shown in parenthesis.

DIGITAL DIVIDE INDEX SCORE

56.82

INFRASTRUCTURE/ADOPTION SCORE

If this score is much higher than the socioeconomic score, efforts should be made to upgrade the broadband infrastructure.

65.39

19.2
(8.3)

percent households without a computing device

22.2
(12.0)

percent households with no internet access (not subscribing)

66.0
(46.5)

percent people without access to 100/20 Mbps based on Ookla speed tests

115
(166)

average download speed based on Ookla speed tests in Mbps

18
(57)

average upload speed based on Ookla speed tests in Mbps

SOCIOECONOMIC SCORE

If this score is much higher than the infrastructure/adoption score, efforts should be made to focus on digital literacy and exposing residents to the benefits of the technology

37.64

15.1
(15.7)

percent population age 65 and older

13.7
(10.3)

percent age 25 and older with less than a high school degree

11.7
(13.6)

percent noninstitutionalized civilian population with a disability

15.3
(12.5)

percent of individuals in poverty

3.6
(5.9)

internet income ratio - a higher number denotes higher inequality
